

A Well Reputed Multinational FMCG Company is now offering positions at the ENTRY LEVEL for the position of Diploma (Technical service Engineer).

Responsibilities

- Operation and maintenance is critical nature as most of the machines are “line stopper” in nature and the manufacturing process is continuous
- Dealing with employees/vendors whose education and knowledge level are generally poor
- Often challenges come from Trade Union as CBA is very strong in BATB
- Good rapport with utility service providers to ensure availability of services to the manufacturing department as well as the company

Requirements

- Diploma in Electrical/ Mechanical/ Industrial Production Engineering having CGPA at 3.30 and above.
- 2 to 3 years experience
